## BATTLE RIVER RALLY AND CONVENTION

**BATTLE RIVER RALLY AND  
CONVENTION, JULY 15-16  
AT WAINWRIGHT**

The Battle River U.F.A. and U.F.W.A. Constituency Association:  
A U.F.A. Rally and the Annual  
Convention of the above association  
will be held at Wainwright on Monday  
and Tuesday, July 15th and 16th.

Somewhat different arrangements  
have been made this year from previous  
years. At the last convention it  
was decided to hold an open air meet-  
ing in the Buffalo Park on the after-  
noon of the first day, Monday, July  
15th, 1929.

The committee in charge, have ar-  
ranged for games, etc., during the af-  
ternoon, a picnic lunch at 6 p.m., fol-  
lowed by a few short speeches, and a  
musical program.

The park, its lake swimming pool  
and other attractions, is an ideal place  
to hold a picnic, and by taking ad-  
vantage of this we will be able to com-  
bine business with pleasure.

The speakers are to be: H. E. Spencer,  
M. P., who will give his annual re-  
port on the past session at Ottawa;  
William Irvine, M.P., Mrs. A. H. Warr,  
U.F.W.A. President, Hon. R. G. Reid,  
J. R. Love, W. G. Farquharson and  
E. Enzenauer, members of the Alberta  
Legislature.

## CHURCH NOTICES AND ACTIVITIES

### CONGREGATIONAL MEETING

An induction and reception service  
will be held Monday evening, July 8,  
in the United Church for the Rev. Mr.  
Geeson. Everyone come and give Mr.  
Geeson and family a real welcome to  
Irma. Ladies please bring cakes or  
sandwiches.

### NOTICE

The Ladies Aid will hold an after-  
noon tea at the home of Mrs. S. G.  
Simon, on July 6th from 3 to 5. Ev-  
eryone come.

### NOTICE

The Ladies Aid will meet at the  
home of Mrs. Jack on Thursday, July  
11th. Everyone welcome.

The Anglican Church service will  
be held at the home of Mrs. S. G.  
Simon, June 30th at 11 a. m., followed by  
Sunday School.

The W. A. of the Anglican Church  
wish to thank all those who so gen-  
erously contributed toward the home  
cooking sale on Saturday last.

The next meeting of the W. A. will  
be held at the home of Mrs. Bert  
Long on Tuesday, July 9th at 2:30  
P. M.

## NEWS ITEMS FROM JARROW

Mr. and Mrs. Ray Moore and fam-  
ily, Mr. and Mrs. Earl Moore and  
family, Mr. J. M. Moore, Mr. and  
Mrs. George Matthews left on a motor  
trip to California.

Miss Mildred Smith who has been  
teaching the senior room in the school  
resigned her position and left for  
Edmonton Saturday morning.

The Community Club held a dance  
on June 28th, not a very big crowd  
was present but good music was sup-  
plied and those who were there had  
a real good time. The embroidered  
bedspread was drawn for and Mrs. H.  
McDougall of town was the winner  
with ticket number 50.

A meeting of the ratepayers of the  
school was held on Saturday, June  
29th to elect a trustee to fill the va-  
cancy caused by the resignation of  
Ray Moore who was compelled to re-  
sign because of ill health. Mr. W.  
Morgan was elected.

Mr. H. Barton has accepted the po-  
sition of teacher in the senior room of  
the school and left on Tuesday to at-  
tend summer school in Edmonton.  
Mrs. Jenkins will continue as teach-  
er of the Junior Room.

The community Club held a business  
meeting on Tuesday evening  
and made plans to begin work on the  
hall at once. Though crops are not  
as good and consequently business is  
dull we feel our hall has become al-  
most a necessity and hope to get a  
good start on it even if it isn't finish-  
ed for another year.

A most disastrous fire occurred on  
Tuesday night when the McDougall  
Bros. Garage was burned to the  
ground. The origin of the fire is un-  
known as the garage had been open  
about an hour before the fire was  
noticed. The building and contents are  
a total loss. Mr. H. Symonds, who  
S-to car was in the garage and was  
burned.

The town was practically deserted  
over the holiday, nearly everyone tak-  
ing advantage of the good weather to  
celebrate somewhere.

Mr. and Mrs. Miller, Fred Rowland  
and Bert Yokes were on a fishing trip  
to Dried Meat Lake.

Mr. and Mrs. Whitford and family,  
H. Symonds, R. Morby, John Strath-  
orn, M. Matthews, E. Meakins, M. Peet,  
G. Meakins were at Viking.

Mr. and Mrs. Luxton took in Mann-  
ville sports.

W. Matthews, A. Morby, J. Mat-  
thew and A. Yokes were at Sedgewick.  
It seemed as if Jarrow was repre-  
sented at nearly all the sports around.

Mr. and Mrs. McNeil is visiting this  
week in Kelsey at Mrs. McNeil's pa-  
rents.

A monster picnic is planned by the  
Sunday school to be held at Hardisty  
lake on July 9. Cars and supplies  
for all the children and a real good  
time anticipated.

Poverty is no disgrace, says a local  
philosopher, but that's about all that  
can be said in its favor.

## 50TH ANNIVERSARY EDMONTON FAIR

### This year's Edmonton Exhibition, to

be held July 15 - 20, should be the  
greatest in the history of the Associa-  
tion, if the present prospect is any  
criticism. Never before have the man-  
ufacturers and merchants been so  
keen to secure exhibit space, and it  
has been necessary to construct a new  
exhibits building, and enlarge the  
grounds, to provide the necessary ac-  
commodation. The big 50th anniver-  
sary programme arranged by the  
Manager, Mr. P. W. Abbott, is bring-  
ing a tremendous drawing card, and  
visitors to the Edmonton Exhibition  
this month will find that in every de-  
partment, the fair excels that of other  
years.

Special features are hoped to draw  
visitors from outside points for the  
first time, to hear and see Hon.  
Frank Oliver, the outstanding "Old  
Timer" of Western Canada, officially  
open the Exhibition. The mammoth  
street parade is receiving the enthu-  
siastic support of the business houses,  
and some gorgeous and novel floats  
will be in the parade. The bands com-  
peting in the Amateur Band Contest,  
twelve in number, will be in the pa-  
rade, along with the Edmonton News-  
boys' Band, the Princess Pat's Band,  
and other city bands. Arrangements  
have been made with Miss Ethel Gath-  
erwood, World Champion jumper, to  
give an exhibition of jumping on the  
opening day. The admission fees to  
grounds and grand stand have been  
reduced, for the opening day, to 25c  
each; during the balance of the week  
the regular prices will be in effect.

Arrangements were completed for  
the 12th July celebration.

The Lodge will be opened at 7 p.m.  
after which a start will be made for  
Battle River to join up with the other  
Alexandra County lodges, then pro-  
ceed to Vermilion headed by the Wain-  
wright band. The procession will  
leave the Vermilion Lodge Room at 11  
a.m. for the celebration.

A committee consisting of Bro's  
McRae, Cole and McLeod was appoint-  
ed to arrange for conveyances and etc.

It was decided to have a car please give in their  
names in good time as it is difficult to  
make arrangements at the last minute.

An invitation was received and ac-  
cepted from the Wainwright Lodge  
for the Irma Lodge to visit Wain-  
wright on Sunday, July 7th and join  
the Wainwright and Gilt Edge lodges  
in the Church Parade. To meet at the  
Masonic Lodge at 3 p.m. and parade  
to the Presbyterian church.

**TENDERS WANTED.**

Tenders called for painting inside  
walls and ceiling of Silver Lane  
school. There are 530 sq. ft. of wain-  
scot, dark slate, 830 sq. ft. of upper  
wall, light green, and 664 sq. ft. of  
ceiling, white. Only best quality  
paint to be used. Also 60 sq. ft. of  
blackboard to be sand papered and  
re-slatted with materials provided. The  
lowest or any tender not necessarily  
accepted.

T. Paul Richmond, Sec.-Treas. Har-  
disty. 3tc.

**POOL TERMINAL STORAGE**

The Alberta Wheat Pool is contin-  
ually increasing its elevator system.  
On Monday of this week the contract  
was let, more than doubling the stor-  
age of the new Pool terminal at Van-  
couver. The number of Pool eleva-  
tors in Alberta has been increased from  
11 to 22. The Pool's continual objective is to  
handle as much of its members' wheat  
as possible through Pool elevators.  
Each year sees an increase in the  
volume of Pool wheat handled through  
Pool facilities. This year total is around 65 per cent.

The new Vancouver terminal was  
completed last fall and had storage  
facilities to handle 2,500,000 bushels  
of wheat. With the proposed addi-  
tional storage of 2,750,000 this eleva-  
tor will have a total capacity of  
5,250,000 bushels. This will provide  
total terminal space owned and con-  
trolled by the Alberta Wheat Pool on  
the Pacific coast of 8,150,000 bushels.

The contract for building the addi-  
tional storage in Terminal No. 1 was  
let to Carter, Hall & Aldinger of Win-  
nipeg. C. D. Howe and Company,  
Port Arthur, are consulting engineers.

**GETTING BUSY**

Every man's day have vanished, we  
will hear the gay mosquito call:  
"I'm busier than the busy bee,  
And yet I get no praise at all."

The Wright family are leaving to  
make their home in Edmonton.

**SURPRISE FOR**

**MISS VILLETTE WRIGHT**  
On Monday afternoon last, a sur-  
prise party was accorded Miss Villetta  
Wright, when her Sunday School class  
numbering about fifteen, met at the  
home of Mrs. Schenert, it being also  
the occasion of little Edna Schenert's  
sixth birthday, and presented Villetta  
with a beautiful Camera, to show in a  
small degree their love and apprecia-  
tion, during the time she had been  
their teacher.

After an afternoon spent in games  
and a general good time, they all did  
justice to a dainty lunch, and before  
leaving for their homes they expressed  
their good wishes to Villetta who  
fittingly replied.

The Wright family are leaving to  
make their home in Edmonton.

## AVONDALE U.F.A. PICNIC JULY 17

### AVONDALE U.F.A. AND U.F.W.A.

**PICNIC & DANCE, WEDNES-  
NESDAY, JULY 17th**

Avondale U.F.A. and U.F.W.A. are  
holding a picnic and dance on Wed-  
nesday, July 17th. One mile west and  
three-quarters of a mile north of  
Paschenedale School, Mrs. A. H. Warr  
Provincial President of the U.F.W.A.  
will speak during the day. A line of  
sports is being arranged.

It is also expected Mrs. Mae Pickel  
and Mr. Aitken, U.F.W.A. and U.F.A.  
directors for Battle River will be  
present. A picnic lunch will be served  
during the afternoon to which ev-  
eryone is invited to bring baskets and  
join in. Orbinde Orchestra will fur-  
nish music for a dance in the evening.  
Everybody come and enjoy the  
day and night.

### 12th JULY CELEBRATION

The Irma L. O. L. 2066 held a well  
attended meeting in the lodge room on  
Thursday, 28th June.

A resolution was passed thanking  
R. W. Bro. the Rev. M. L. Wright who  
is a passed Grand Master of the asso-  
ciation thanking him for the assistance  
he has rendered the lodge during the  
past four years, and wishing him  
and his family success on their new  
ground.

Arrangements were completed for  
the 12th July celebration.

The Lodge will be opened at 7 p.m.  
after which a start will be made for  
Battle River to join up with the other  
Alexandra County lodges, then pro-  
ceed to Vermilion headed by the Wain-  
wright band. The procession will  
leave the Vermilion Lodge Room at 11  
a.m. for the celebration.

A committee consisting of Bro's  
McRae, Cole and McLeod was appoint-  
ed to arrange for conveyances and etc.

It was decided to have a car please give in their  
names in good time as it is difficult to  
make arrangements at the last minute.

An invitation was received and ac-  
cepted from the Wainwright Lodge  
for the Irma Lodge to visit Wain-  
wright on Sunday, July 7th and join  
the Wainwright and Gilt Edge lodges  
in the Church Parade. To meet at the  
Masonic Lodge at 3 p.m. and parade  
to the Presbyterian church.

**TENDERS WANTED.**

## NEWS ITEMS FROM KINSELLA

### The Kinsella gravel pit which has

been operating for the past two  
months is soon to be closed down.  
Several thousand carloads of gravel  
have been taken out this summer.

Owing to the exceptional dry sea-  
son very little breaking of new land  
has been done in this district this  
year. Many tractors bought for the  
purpose of breaking new land have  
been standing idle.

Miss Winnie Maxwell, teacher of  
the Lake Vernon school was respon-  
sible for the very enjoyable time had  
at the school on the closing day, June  
28th. Everybody participated in the  
various competitions with unusual en-  
thusiasm. Refreshments were in evi-  
dence. The day was wound up with  
the skipping of the light fantastic un-  
til the wee hours of the morning.

Harold Anderson who was reported  
seriously ill in the Royal Alexander  
hospital, is now back to his friends  
here. Mr. Anderson entered the hos-  
pital some two months ago with a  
cold, which developed into a very seri-  
ous illness. He is now steadily re-  
cuperating lost strength and is well  
on the road to recovery.

Considerable road work has been  
done in various parts of the district  
this year. Several of the gangs have  
now pulled in and great improvement  
is noted.

A rain of short duration fell here  
last week end and has brightened the  
prospects somewhat. The moisture  
condition however remains serious and  
more rain is required.

Several youths from Kinsella were  
charged with raising a disturbance in  
an Irma restaurant. They were  
found guilty and fined accordingly.

Mr. Bizanz is here directing the  
loading of a drag line to be shipped to  
his gravel pit at Biggar, Saskatch-  
ewan. It will be remembered that in  
the early days Mr. Bizanz used to op-  
erate his gravel pits which in later years  
has been closed down.

Johann and Lewis Overbo returned  
from Edmonton last Saturday after-  
noon.

Johann, after spending a week here  
visiting friends will go to Provost to  
take charge of the United Church  
there.

One cow belonging to Geo. Lee was  
run over by an east bound passenger  
train. The cow being badly injured  
was later killed.

Stanley Sawinski who has been  
serving time in Prince Albert peni-  
tentiary is out on parole and is now  
back to his farm south of town.

Olaf Overby has returned to the  
Kinsella district after spending a  
couple of months in British Columbia,  
and Mr. Overby reports times not very  
good in B. C.

Mr. Figure of the Kinsella pool  
room has left for Edmonton and will  
undergo a serious operation in the  
University hospital.

Peter Larson received the sad news  
last week end that his mother had  
passed away at her home in Holden.

Mr. Knut Napoleon Vilhus who has  
spent the greater part of his life  
studying the labor conditions in Eu-  
rope is travelling through making ob-  
servations of the labouring conditions  
in Canada. Mr. Vilhus has stopped off  
to call on some friends at Kinsella.

### THE CHANGING WORLD

At fifteen: "Let's go!"  
At twenty: "Give me a chance and  
I'll show 'em."

At twenty-five: "It's all wrong—  
there must be a reform."

At thirty: "I'll live to see the dawn  
of a new day. In a few years the peo-  
ple will wake up and demand their  
rights."

At thirty-five: "I'd be rich if I'd  
stayed single."

At forty: "I'm sick of reformers."

At forty-five: "What if I?"

At fifty: "Thank God I've got a  
good bed."

At fifty-five: "The human race is  
not worth saving."

At sixty: "I believed that once."

At sixty-five: "It won't work."

At seventy: "The world has chang-  
ed a whole lot."

"That spring chicken you sent me  
proved to be pretty tough, said a cus-  
tomer in a meat market at Jarrow.  
"Well, you must realize that we've  
had a pretty tough spring," replied  
the proprietor.

## Apply the Same Principle

During recent years there has been a decidedly better understanding between the east and the west of Canada, and between the Maritime Provinces and the rest of the Dominion, based on closer acquaintance and knowledge of the problems confronting the people in each of the major sections of this far-flung country. There is today far less of sectionalism, prejudice and misunderstanding than in any previous period of Canada's history, and, happily, this spirit of goodwill and co-operation is growing more and more pronounced.

Anything and everything that will tend to promote this wider knowledge and better understanding should be done and encouraged. We believe goodwill and understanding can only be brought about and maintained by frankness and the dissemination of knowledge. That is, eastern people must be made and kept acquainted with actual facts about the west and informed as to the views, opinions and ambitions of the west, and, vice versa, western people must be informed in like manner about the east. And it is particularly the duty of the newspapers of the Dominion to discharge this patriotic duty.

It is in the performance of that duty we would draw attention to a recent editorial article appearing in "The Financial Times," Montreal, dealing with the subject of the revision of the Grain Act. To much of that article no exception can be taken, but the whole difficulty is that it is based upon an entirely wrong conception, which fact is made abundantly evident in the concluding sentence of the article, as follows: "The important consideration is to protect the buyer, which will at the same time be a safeguard on the dependable reputation of Canadian wheat in all markets."

—This may be the eastern viewpoint, but we submit the western viewpoint, and that is that the word "producer" should be substituted for the "buyer" in the sentence quoted.

The person entitled to receive first consideration in matters affecting the grading, mixing, transportation of wheat is the man who grows the wheat, not the man who buys it, or transports it, or mills it into flour. The status of Canadian wheat in the markets of the world must remain unimpaired at a high standard, not so much for the benefit of and protection of the British or foreign buyer, but in the interests of and to protect the Canadian farmer who grows the wheat in order that he may obtain full value for his product and ample reward for his labor.

Submitting the western viewpoint, for the benefit of eastern people, it may well be asked of "The Financial Times," and other exponents of its dictum that in matters affecting the grain trade of Canada the important consideration "is to protect the buyer," whether it, and they, are equally prepared to accept the principle that, in all matters affecting, say the customs tariff, the important consideration is to protect, not the manufacturer of the product, but the consumer of the product, the industry, but the great mass of consumers of Canada, the people who "buy" the products of these factories?

If it is the "buyer" or the products of the farm who are deserving of first consideration, and who above all should be protected, then pure logic must force acceptance of the principle that it is the "buyer" of the products of the factories who must likewise be given first consideration, and their interests of the manufacturer and producer, and foremost in all matters of tariff or other legislation affecting such industries.

In other words, according to the eastern view, as they would apply to the farmer, it is not the industry that should be protected, or those who have made investments in industry and labor in it, but the buyers of the products created by such industry. The truth is, however, that when these same interests advance tariff and other arguments in their own behalf they directly reverse the principle, and resolutely contend that it is the producing manufacturers who must receive first consideration and be accorded protection, rather than the buyers, i.e. the consuming masses of the Dominion.

Good understanding and complete national co-operation between east and west cannot be built up in this way. It is impossible to apply one principle toward western agricultural industry and an opposing principle to eastern manufacturing industry. The same principle must be applied both east and west.

### Discover Radium Mines

Find in England Has Already Yielded \$5,000 Worth

Radium mines are not discovered every day, but some meteorologists, while exploring a lead near Matlock, England, had their candle lights extinguished by bad atmospheric conditions. They saw ahead of them a dimly lighted cave, and a sample of earth taken from the cave was sent to Mme. Curie, who declared it to contain radium. The mine and estate was then bought for \$150,000. Further exploration, it is stated, has resulted in the discovery of another radium active mine, which is now to be exploited. The estimated value of the radium already found is \$5,000.

Half of the world's supply of aluminum comes from Arkansas. Aluminum is never found in its metallic state, but is always combined with bauxite, granite, felspar, mica, etc.

### APPETITE IMPROVED QUICKLY

### Declares Allies Fear Of Germany Absurd

Only Nation Without Arms Says Minister Of Defence

Dr. Wilhelm Groener, minister of defence, in a speech reviewing Germany's military policy charged that the states victorious in the world war have done nothing along disarmament lines and endeavored to show that it was absurd for the allies to claim they could not disarm until they were sure of not being attacked by Germany.

Speaking of present military forces, he said:

"France has, on European soil, 27 divisions; Belgium six; Poland 30, and Czechoslovakia 26 brigades, a total of 75 divisions compared with Germany's seven. Who, I ask, needs security? I can't leave unmentioned that besides these troops, the other nations also possess aviation squadrons, heavy artillery and powerful reserves of trained men and war material of a kind we do not possess at all."

### Double Jeopardy

A correspondent assures us that the following notice has been posted around about an electric station in Donegal: "Beware—To touch these wires is instant death. Anyone found doing so will be prosecuted."

With a population that ranks 28th among the countries of the world, Canada is fifth in total exports and third in total turnover of trade.

Keep Minard's in the Medicine chest.

### Settlement Scheme Nears End

Three Thousand Family Settlement Plan Has Been a Success

In a few weeks the 3,000 family settlement scheme will end and no project of the future will take its place. Hon. Robert Forke, Minister of Immigration, stated recently. There was no desire to make the project an endless one by replacing settlers who had abandoned farms, he said.

The project had been successful in every respect, and Canada had acquired an increase of about 17,000 souls through it. Already 3,250 families had been brought to Canada under the scheme; a total of 529 families had abandoned their farms for various reasons; 34 had been deported; 72 had returned to Great Britain of their own accord, while 414 remained in Canada in other employment, either in agriculture or other work.

### WHAT OUR GIRLS NEED

When Languid, Anaemic and Feeling Run Down

When a girl grows languid, dull and irritable, when her color fades and she becomes pale, you may be sure that the cause is anaemia, or impoverished blood. The bright red color of the blood is caused by the presence in it of millions of tiny red corpuscles. It is these tiny bodies that carry nourishment from the blood to the tissues. They also cause the glow of health in cheeks and lips. When a girl's blood is deficient in these red corpuscles, her body is under-nourished, her nerves starved, and there is serious danger of a decline. What is needed is an improvement in the quality of the blood, and it is a scientific fact that a course of Dr. Williams' Pink Pills will so enrich and purify the blood that all traces of anaemia and its accompanying weaknesses will disappear. As an evidence of the value of Dr. Williams' Pink Pills in cases of this kind, Mrs. John Finlin, Howland Station, P.E.I., says: "I am glad to take this opportunity of recommending Dr. Williams' Pink Pills. My daughter was in a badly run down condition; very pale, nervous and much under weight. We tried several medicines, but they did not seem to do her any good, so I decided to give her Dr. Williams' Pink Pills. Almost from the start she began to improve, and after the use of a few boxes she had gained in weight, her appetite improved and she had a better color in her cheeks. In fact she had fully regained her former good health. I would advise every mother of young girls to give them Dr. Williams' Pink Pills as the first sign of an anaemic condition. You can get these pills from any medicine dealer or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont."

### Zeppelin's Flight Cancelled

Atlantic Trip Of German Dirigible Postponed Until 1930

A special despatch to the Telegraph from Union Friedrichshafen said that the trans-Atlantic flight to America of the dirigible Graf Zeppelin had been postponed until 1930. A flight around the world for the big airship was scheduled to start about July 15.

The Graf Zeppelin's last attempt to fly to America ended on May 17, when crippled engines forced her to turn back over Spain.

Capital invested in the world's rayon industry now exceeds \$500,000,000.

### From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful. I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."

—Mrs. Milton McMullen, Vancou, British Columbia.

LEECH, MASS., U.S.A.

### Protects Ship Against Fire

Modern Liners Have Device For Instant Detection Of Smoke

The captain on a modern liner can look into a cabinet and tell at a glance whether fire has broken out, and also in what part of the vessel. Go into the hold of any properly equipped ship and light a cigar; in less than five minutes the captain on the bridge can tell where you are smoking. In the captain's cabinet is a series of glass-fronted tubes, one for each hold, through which air is constantly flowing. Ordinarily you can see nothing—all is black; but with the faintest trace of smoke from the hold there suddenly appears against this black background a thin, quivering thread of blue. For within the tube is a shielded bulb of brilliant light. As long as the air current is pure there is nothing to illuminate; but the moment a wisp of smoke flows through, the light rays, make it show up against the black background like a meteor.

There are other fire-detecting devices also—devices that betray a fire at the slightest change in temperature. It is after they have performed their part that the modern fire extinguishers are brought into play. These are pipes which by the simple turning of a valve, without opening the hatch or the hold in which the fire has started, can fill that hold with live steam, in which no fire can live. Or one can flood the hold through the same pipes with carbon dioxide, and again the fire is out, with negligible damage to most classes of cargo. Or the hold can be flooded with a substance that flows over the flames like a blanket on that foam and smothers them.

Wise and experienced mothers know when their children are troubled with worms and lose no time in applying Miller's Worm Powders, a most effective vermifuge. It is absolute in clearing the system of worms and restoring these healthy children to their normal state. It can be no comfort for the child, or hope of robust growth. It is a most trustworthy worm exterminator.

### Revising Court Laws

U.S. Will Admit Double Number Of British Immigrants

Nearly twice as many Britons yearly may enter the U.S. under the immigration quota after July 1. The Senate refused to prevent the national origin clause of the immigration act of 1924 from going into effect on that date.

It follows from the action of the Senate that the quotas of the various nations which send immigrants to the U.S. will be revised. The greatest changes will be in the quotas affecting Great Britain and Northern Ireland, Germany and the Scandinavian countries.

British immigrants to the number of 65,721 will be permitted to enter the country as against the old number of 34,007.

Unless worms be expelled from the system no child can be healthy. Mother Graves' Worm Exterminator is an excellent medicine to destroy worms.

### Bad Either Way

Scot (to friend while visiting London): "Now, mon, I can't stand taxis! When I sit wi' ma back tae the driver, it makes me feel sick, and when I sit wi' ma face tae the taxi-meter, it makes me feel nae better."

Professor—Go your fastest, my man! I am in a desperate rush. Taxi Driver (after speeding along for 30 minutes)—Say, you forgot to tell me where we are going.

Soft corners are difficult to eradicate, but Holloway's Corn Remover will draw them out painlessly.

### Refine Gold At Mint

Most of Canada's gold bullion is now refined in the Royal Mint at Ottawa.

Minard's Liniment for sick animals.

### Speckled Trout For

Jasper Park Lakes

Anglers May Expect Real Sport In Canada's Largest Mountain Playground

So successful was the experiment made by the Dominion Government last year in stocking Maligne Lake, in Jasper National Park, with trout, that a quarter of a million more fry are now growing up in the hatchery there, and will be turned loose in the great glacial lake in a few weeks time.

As eggs, the 250,000 travelled to Jasper from Croco, Pennsylvania, last winter, and so carefully was the precious freight handled by the Canadian National Express that only 70 of the eggs failed to hatch. Arrived at Jasper, the eggs were given into the care of Warden Herbert Davis, who is carefully nursing them along. He feeds the multitude four pounds of chopped liver a day and keeps the water moving and at a proper temperature.

Early in June the fingerlings will be taken out of their trays and transported in tin to Maligne. "The fish put in there last year," says R. Langford, supervising warden, "have grown to a good size. They and the new batch are speckled trout. We expect a shipment of rainbow trout in a few weeks for Cabin Lake."

For sunburn—apply Minard's Liniment.

### Canadian Jersey Breeders

Good Market In States For Canadian Breed Jersey Cattle

Writing from Tupelo, Mississippi, W. Elmo Ashton, fieldman for the Canadian Jersey Breeders' Association, points out that it is apparent to anyone going through the States of Georgia, North and South Carolina, Mississippi and Alabama, that the southern states offer a great market for Canadian Jerseys. In the past year and a half these states have taken from Canada over 300 head of young bulls and heifers.

Wretched From Asthma. Strength of body and vigor of mind are inevitably impaired by the visitations of asthma. Who can live under the cloud of recurring attacks and keep body and mind at their full efficiency? Dr. J. D. Kellogg's Asthma Remedy dissipates the cloud by removing the cause it does relieve. It does restore the sufferer to normal body trim and mental happiness.

### Small Churches In England

What is said to be the smallest ecclesiastical building in Britain is St. Margaret's Chapel, Edinburgh. This little church is only 16½ by 10½ feet. Dorset church at Winterborne Thompson, is 23 by 14 feet. Churches at Culbone and St. Lawrence are also small, having less than 430 square feet of space.

### Emerald Lake, Yoho Park

Beautiful Emerald lake, in Yoho national park, British Columbia, was first visited by Tom Wilson in 1882 while searching for stray pack horses. As far as is known, he was the first white man to visit this lake.

### I've forgotten I ever had any nerves

Your doctor will tell you how the act of chewing relaxes and soothes strained muscles, and how the healthful cleansing action of Wrigley's refreshes and tones you up all round. Aids digestion.

### Sheet Glass Factory

Calgary May Be Selected As Suitable Place For Establishing Plant

Calgary is very suitable for the establishment of a sheet glass factory, and it may be chosen as the site for such within a year, according to F. S. Hobbs, of Toronto, vice-president of the Consolidated Plate Glass Company, who has been inspecting various cities in Western Canada with a view to locating a branch plant. A big business is being done in plate glass in the Prairie Provinces, he said, making it advisable for the firm to enlarge its present holdings.

For Catarrh. It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as outwardly. Sufferers from catarrh will find that the Oil when used according to directions will give prompt relief. Many sufferers from this ailment have found relief in the Oil and have sent testimonials.

### Believe It Or Not

A small tortoise, on which Mrs. Sarah Blair, now dead, carved her initials and the year "1862," 67 years ago, has been found by her daughter, Miss Mary Blair, within a mile of the original Blair home at Scotsburg, Ind.

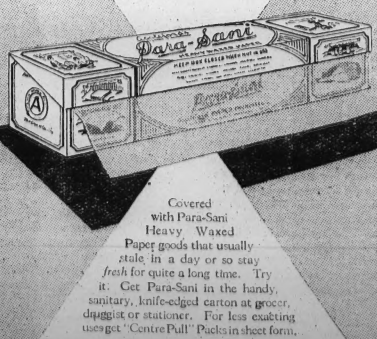

Glimpy, considered one of the most weather-beaten places in northern Norway, has a new church. To prevent its being blown away it is anchored to the rocks by heavy chains.

### In The Locker Room

Minard's is the stand-by of those who take care not to suffer from stiffness and aching muscles.

## Consumption Of Wheat Found To Have Declined Considerably In Recent Years

Is wheat bread no longer the staple of life it used to be? Statisticians whose business it is to look into the matter find that the consumption of wheat has shrunk from 5.6 bushels per capita in 1913, to 4.3 bushels per capita in 1926. Into the cause of this decline the United States senate has ordered the secretary of agriculture and the secretary of commerce to investigate. Those two departments of the Washington government are to report to the senate not later than the beginning of the session of congress which meets in December.

The result of that inquiry will be interesting to all countries in which wheat is produced on a large scale, and to no country more than to Canada. They will be curious to know if people are changing their habits of eating, and are finding more satisfaction in supplementing their grain food by other edibles. That there has been a remarkable increase in the consumption of green vegetables and fruits and of preserved vegetables and fruits is a notorious fact, but it would be surprising to learn that the consumption of these foods has gained upon the consumption of wheat products so as to displace almost 25 per cent of the latter. Green vegetables and fruits in the form of salads have undoubtedly taken a considerable percentage of the demand that formerly went to meats, but their part in lowering the consumption of bread was not generally suspected to be great. Yet let any observer of people who take their lunches at cafeterias speak and he will probably say that it is, noteworthy how generally they pass by the bread rolls and biscuits to fill their order from other edibles.

Tastes change, new appeals to the appetite are brought forward, and the advance of dieticians is being followed as it never was followed before. It seems improbable that the decline in the consumption of wheat bread is going to amount to tragedy. A very large part of the world's population can afford better meals than they could before the war. If, as appears to be the case, people diversify their foods more than in former times, the hint should be taken by our own farmers to diversify their agriculture and produce more kinds of foodstuffs than they now produce. Mail and Empire.

### Moose Jaw a Milling Centre

Is Now the Second Largest Milling Centre in Western Canada.

Moose Jaw is now the second largest flour milling centre in Western Canada. The Robin Hood Mills produce 4,000 barrels of flour, 1,250 cases of cereals and a heavy tonnage of standard stock foods every day. Moose Jaw is also the Prairie livestock centre and headquarters of the Saskatchewan—Prairie Stock and Auction Sale, with 3,000 head of cattle and 10,000 sheep on show and sale every October.

### The Wrong Tickets

It was dusk and the ticket inspector went to the young couple on the back of the bus.

"The youth, slightly impatient at the interruption, thrust out his folded tickets."

"We do not stop there," said the inspector courteously.

"Where?" inquired the youth.

"At the pavilion," said the inspector.

First Woman: My husband is so nervous. If the slightest thing goes wrong he loses control of himself. I hope yours isn't like that.

Second Woman: Mercy no! But is as hard to rattle as a feather pillow.

"How much is this book?"

"The proper price is eleven lire, but the author has signed his name in it, and so."

"And so I may have it cheaper as a damaged copy?"—Il Travaso, Rome.

W. N. U. 1793

### Realizes Importance Of Canadian Trade

France May Make Another Trade Treaty With Dominion

France regards Canada as one of the best fields for monetary investment in the world and realizing the importance of the Dominion appears likely soon to enter into another trade treaty with this country, wider in scope than the one now in effect, is the opinion of Hon. Philippe Roy, Canada's minister to France. Mr. Roy who was in Vancouver, planned a trip into the Peace River District before returning to France.

Both France and Canada appear to realize the advantage of further trade concessions. Mr. Roy, and a growing trade between the countries can be expected. Mr. Roy also visited Edmonton, which was his home prior to 1911.

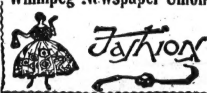

"I want to see all of this country that I can," he said, "because I am going to do a great deal of talking about it when I return to France."

### If People Had Time

Many Have Delusion That They Could Become Famous

Isn't it funny, too, how many of us harbor delusions that we could become famous or wealthy if we had time. We think that we could write a novel, or a play, or maybe a movie scenario if we had time. Or perhaps we could develop a new rose or a gladiolus, or an iris, that would make our name known throughout the horticultural world if we had time. Or we might write poetry if we had time. All these make pleasant dreams, but each of us has "all the time there is" and it is most likely that, if we were forced to take a chance, we would suddenly begin to do the things we have always thought we wanted to do.

### Winnipeg Newspaper Union

### NOVEL TWO-PIECE DRESS

Novel ideas now appear on frocks for the younger fashionables. In Style No. 875 for instance, the separate blouse with inset chemise is gathered into band at lower edge to affect smart tuck in type. The two-piece skirt with plaited insets, is attached to an underskirt. French blue linen with white vest, printed satin, blue and beige jersey, printed and plain silk crepe, dainty printed wool challis, colorful rayon and wool crepe are smart and serviceable. Pattern comes in sizes 6, 8, 10, 12 and 14 years. For the 8 year old miss 1 1/2 yards of 40-inch material with 3/4 yard of 36-inch contrasting, and 3/4 yard of lining is all that is needed. Price 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart ensembles, and cute designs for the kiddies.

### Poultry Registration

Growing Demand For Stock Of Registered Poultry Is Shown

The Egg Laying Contests carried on by the Federal Department of Agriculture at the central farm at Ottawa, and at certain of the experimental farms throughout the provinces, has for one of its chief objectives the discovering of qualifications in individual birds for registration. In a report of the eight contests that have been held up to the end of 1927, issued in Bulletin No. 108, of the Department of Agriculture, at Ottawa, it is shown that 4,492 birds had qualified for registration. Of these, 4,130 were females, and 362 males. Females to qualify for registration are required to lay at least two hundred eggs weighing at least 24 ounces to the dozen during the fifty-one weeks under test. A male to be eligible for registration must be the son or grandson of a registered female, and his sire and grand sire must have been approved male birds, or the son of a registered male, and at least a second generation registered female. Both males and females are also required to pass inspection as to standard qualifications, constitutional vigour and breed type. This report indicates an enthusiastic appreciation of the registration work which is shown by the increasing numbers of birds entered for test each year and the growing demand for stock from registered parentage.

### Importing Sheep From England

Five Head From Royal Flock Purchased By B.C. Breeders

Sheep from the famous flock of His Majesty, King George, are being imported on Vancouver Island and will soon arrive at their new pasture in the Sooke Hills.

C. E. Whitney-Griffiths, director of the Canadian Sheep Breeders' Association, who, with his brother, is one of the largest purchased-sheep breeders in British Columbia, has purchased five head from the South-down flock which was started many years ago by the late King Edward, when Prince of Wales.

Introduction of new blood is said to be urgently needed to improve the flock in this province, and no one can this be better obtained than by the importation of pure-bred stock from some of the noted sheep districts of the old country, according to breeders at Victoria.

### Exhibit Canadian Furs

Proposed To Send Collection To Fur Exhibition At Leipzig

An exhibit of Canadian furs valued at \$75,000 will be included in the fur exposition in Leipzig, Germany, this summer, if plans of leading Canadian buyers mature. Consideration is now being given by Hon. James Macdonald, Minister of Trade and Commerce, to a proposal that the Government bear the expense of erecting and staging the exhibit. A collection of the most beautiful furs produced in this country is being made for the purpose.

### Poison Gas

A monument was recently unveiled at Stenestraete commemorating the first German attack with poison gas. The inscription reads: "On April 22, 1915, the troops of the 87th Territorial Infantry Division and the 45th Infantry Division were poisoned by the first cloud of gas. Since then, the victims of that abominable method of warfare have died every day in peace time."

### For Land Settlement

J. F. Weston, vice president of the Colonization Finance Corporation of Canada, Ltd., and managing director of the Imperial Life Insurance Company, The Colonization Finance Corporation has entered into an important agreement with the Canada Colonization Association for the settlement of privately owned lands, says the Department of Colonization, and Development, Canadian Pacific Railway.

### Solves Old Problem

Geological Survey Tells What Becomes Of Rain Water and Snow

What becomes of the rain water and snow?

The question has been answered by the geological survey of the department of the interior, at Washington, after a three-year study of Pomperaug Basin, in Connecticut, which is regarded as a typical area, in that it has 44 inches of water falls annually in the basin as rain or snow, 21 inches flows out through streams. Twenty-three inches of it is returned to the atmosphere by the process of evaporation from the soil, water surfaces and surface objects, and from being drawn up by roots of plants and given off through their leaves.

Of the 21 inches that is carried away by streams, 12 inches never gets into the ground but immediately runs off, while about eight inches of the river water first finds its way underground and reappears in springs and seeps.

### Encourage Sheep Raising

Project Launched in Manitoba To Place More Sheep On Farms

The plan recently launched by Lieutenant-Governor J. D. McCreger, of Manitoba, to place more sheep on the farms of the province, and which led to the formation of the Manitoba Livestock Credit Company, to finance the project, is making headway in the Brandon area. A committee has been appointed, with J. C. Biddell, manager of the Canadian Bank of Commerce, as chairman, to handle applications for sheep. The committee reaps no pecuniary gain and railways, banks and other large financial bodies are backing the project.

### A Real Optimist

"Now, young sir, what is it you want," said an old woman who kept a toffee stall to a little boy. "Nothing missus," replied the lad; "I've just come to see what I might have got if I hadn't lost my penny!"

"Hey, there, don't you dare park that car of yours near my horse!" "Don't worry, I know the city rules are not to park near a plug."

### SUN PARLORS FOR CANADIAN TRAINS

Parlor cars with glassed-in observation platforms are the latest addition to the equipment which the Canadian National Railways are using on their trains between Winnipeg and Duluth and the boat trains between Winnipeg and Port Arthur. Vite glass is used in these sun parlor cars, this type of glass letting in 75 per cent of the violet rays, the health-giving part of sunlight, which are not able to pass through ordinary glass. The size of the windows permits unobstructed vision of the scenery and the cars have been tastefully decorated and furnished. They represent the most up-to-date type of rolling stock in use on the continent.

## American Universities To Put On Special Course For Criminal Research Work

### Buffalo Herd Menaced By Wolves

Pack of Wolves Play Havoc With Buffalo In Slave Lake Reserve

Wolves are taking a heavier toll of buffalo from the Slave Lake reserve than Indians or disease, states J. G. D'Aoust, former warden in the reserve, who has just reached Edmonton from the north.

There is one pack of wolves in the park, between ten and fifteen in number, which kill upwards of a hundred buffalo each year, despite the efforts of the ten guardians who are continually hunting the grey killers. D'Aoust was stationed on Slave River, 35 miles north of Chipewyan and patrolled a line some 60 miles in length. In this section alone he found the remains of 11 buffalo that had been killed by timber wolves during the past winter.

Although upwards of 10,000 buffalo have been shipped into the reserve by the government, D'Aoust declares that at the most there are not over 5,000 animals here now, including the original herd of 1,500 wool buffalo. He estimates that 75 per cent of the yearlings shipped in have died from injuries received in transit and the dies which they had to face on being freed.

Indians living on the area enclosed by the reserve at the time it was set aside are permitted to continue to trap and hunt there, but they cannot kill any buffalo. It is very rarely that they break this regulation. Whites are not allowed to hunt or trap within the reserve.

### Using Lumber From B.C.

Japan Takes Millions Of Feet Yearly For Making Bathrooms

Millions of feet of British Columbia lumber are being used each year in Japan in the manufacture of bathtubs, according to a Vancouver man who recently visited the Orient with a view to the disposal of Canadian lumber.

"The Japanese," he stated, "are devoted to bathing as a sort of pastime. The Japanese do not take a bath once or twice daily as is a rare individual. Every house, even the smallest cottage, possesses a bath tub of some sort. They use 150,240,000 feet of lumber in manufacturing tubs, and of this much is British Columbia fir or cedar."

### Decline Of Oratory

Debates In Parliament Are More Business Like Than Formerly

The fact that orators are now few and far between in Canadian public life—in marked contrast with the number who flourished in the decades immediately succeeding Confederation—is quite often made the subject of comment. But it cannot be denied that the proceedings of the several Parliaments of the Dominion are now conducted in a much more business-like manner than was formerly the case and that in spite of the decline in oratory, the tone of debate is much happier and less vitriolic than was formerly the rule.—Brookville Recorder and Times.

### Canadian Grasses

Scientific Study Will Result In Increasing Value Of Pastures

The scientific study of Canadian grasses has brought such good results that the Canadian farmer, in certain circumstances, will be able to triple the value of his pasture. Dr. Frank T. Short, Dominion chemist from Ottawa, told the Dominion Chemical convention at Toronto, in the course of an address on the subject of the experimental farms.

Sunday School Teacher (reading of the deluge): "And then it rained for forty days and forty nights."

Bright Pupil: "And were the farmers satisfied then, teacher?"

The man who pays his debts promptly is wise enough not to owe much.

### Indignant At the growth of crime on its body politics, its reputation smirched by the smoking guns of gangsters, the City of Chicago will cradle its own potential deliverer—the "super-detective."

This creature, heretofore only a myth of fiction, will be made into flesh and blood to replace the policeman whose chief qualification often is but a stout heart.

Two of America's leading universities, both in Chicago, have hung up handbills on the wall for the heretofore undetected murderer, thief, firebrand, kidnapper, racketeer and other transgressors on the peace and comfort of society. Police and work will henceforth be a part of the curriculum at Northwestern and Chicago universities, and racket-ridden Chicago will be their research laboratory.

August Vollmer, chief of police at Berkeley, Calif., will head the new department at Chicago, and will inaugurate the course at the beginning of the fall semester next. October, Leonard White, professor of administration and chairman of the local community research committee at the university, who worked on the plans with Chief Vollmer, said that while the course will be confined at the outset to the problems of police administration, it will become eventually a major study in which the student may work for a degree.

Every avenue of learning that can aid in the tracking down of a criminal will be thrown open to the embryo detectives. White said. The course eventually will be designed to permit special study of one or two years as well as the full four-year college course for those who wish it.

An inter-departmental committee will co-operate with Professor Vollmer to see that his students are well-grounded in all the sciences necessary to intelligent investigation.

The student undertaking the full course will study the chemistry of poisons, criminology, sociology, psychology, physics and anthropology and learn to apply the studies to the investigation of crime.

### West Produces Finest Wheat

German Miller Has High Opinion Of Wheat Grown In Western

Wheat from the Prairie Provinces of Canada is the finest received in Germany from any country in the world, according to Johann Layge, one of the seven German millers making a tour of the North American wheat-growing and milling centres. "Canadian mills are second to none, if mills visited in Winnipeg may be accepted as representative of Canadian plants," said Mr. Layge. "In operation, cleanliness and the beauty of the flour turned out we have seen nothing better" since we arrived on this continent."

### Started Ten Years Ago

The movement for the preservation of national historic sites in Canada dates back to the year 1919. Representations were made then to the Dominion Government urging the necessity of a national organization for the preservation of historic sites and as a result an honorary Historic Sites and Monuments Board was created. This board is composed of a number of eminent Canadian historians who have given their services without compensation.

### Road To Sherritt-Gordon Mine

With the roadbed complete, laying of steel on the 42 mile railway branch, Cranberry Portage to Cold Lake, to serve Sherritt-Gordon, has started, and by the end of August the job should be near completion. Sherritt will then take in its 1,500-ton mill.

"Mother, that lady must be very poor!"

"Why?" "She hadn't enough cloth to make a coat, and she had to lengthen it with fur."—Lustige Kolner Zeitungen, Cologne.

## VIKING SPORTS WELL ATTENDED

Another sports day has gone into  
history, and although not as well at-  
tended as some in former years, there  
was a fair sized crowd on hand when  
the band started the march to the fair  
grounds.

At 1.30 the programme commenced  
with a basketball tournament that  
lasted practically all afternoon, with  
junior, senior men's and ladies teams  
competing. All the games were well  
contested some of them were real ex-  
citing and close. Basketball seems to  
be flourishing in all parts of the dis-  
trict as there were nine different  
teams taking part in the tournament.

In the first junior game Rutherglen  
and Viking mixed things up, Viking  
winning by a fair margin.

In the second game Mooseville de-  
feated Phillips by quite a score.

The Viking ladies trimmed the Phil-  
lips basketballers in a well played  
match.

The Bruce men's seniors trotted out  
a real fast aggregation against the  
Viking basketballers and it was nip and  
tuck struggle until the final minute.

Bruce won by a margin of three  
points. They took on Roseburg in  
the finals and also came out winners.  
Two good games of football were  
played during the afternoon. In the  
first Phillips defeated Rutherglen 3 to  
1. In the finals Viking won over  
Phillips 1 to 0. Much skill was shown  
by several of the players on each  
team, and the brand of football is im-  
proving.

The Bruce baseball team didn't en-  
courage much opposition to the Viking  
team, and the game was not up to  
standard seen at sports days. How-  
ever, Bruce was the only team that  
the baseball committee could secure  
for the day, as other towns were al-  
so holding sports days and the bet-  
ter teams were engaged weeks ago.

Two running races were run off. In  
the pony race Buzzanka won 1st; A  
Square 2nd; D. Kennedy 3rd.

In the free for all, first and second  
went to H. Adupt, and third to Max-  
well.

The entries for the harness races  
didn't show up, which was a disap-  
pointment to the management as well  
as the crowd.

The horseshoe tournament was won  
by Jack Slavik and Monte Hoskins in  
the final against H. E. Gares and  
Clyde Hoskins.

The Elks midway attractions were  
well patronized all afternoon. J. L.  
Clinton, who catered to the crowds  
with ice cream, soft drinks and cigs,  
also had a staff busy most of the  
time.

All the kiddies that entered the  
grounds were given a ticket by the  
Elks good for something at the re-  
freshment booths.

The dance in Jensen's hall in the eve-  
ning and the moving picture show  
were well attended.

The horse races and baseball were  
not up to the standard of sports day  
attractions, due largely to the fact  
that many neighboring towns were  
holding celebrations on the same day.  
The football and basketball contests  
some of the best ever seen here.

The Viking band played at fre-  
quent intervals during the afternoon  
and many complimented the members  
for their excellent showing.

In view of the fact that it is al-  
most impossible to secure good ball  
teams on July 1st, there has been  
some talk of changing the sports to  
some day about the middle of June.

The directors of the agricultural so-  
ciety will no doubt take this under  
consideration at their next meeting.

There was a fairly large attendance  
at the decoration day exercises held  
at the cemetery last Sunday afternoon  
under the auspices of the Elks. Af-  
ter the wreaths and flowers were  
placed on the graves, a short service  
was conducted by Rev. Loydall-Bee, a  
member of the Elks fraternity. Three  
hymns were sung, the Lord's prayer  
repeated in unison, and an address ap-  
propriate to the occasion was deliv-  
ered by Rev. Bee. It is planned to make  
the service an annual affair.

The touring colored Texas Giants  
were here last Thursday evening and  
played a match game with the local  
All Star team. For eight innings it  
was real good ball, the score at the  
end of the eighth being 4 to 4. In the  
ninth the Giants put in their best  
pitcher and held our team scoreless  
while they made two on a couple of  
costly errors. It was the opinion of  
many that the colored boys had to ex-  
tend themselves to win from our ball  
tossers. A Kastor officiated as um-  
pire and had the game well in hand.  
There was an attendance of about  
600.

Mr. and Mrs. W. L. Campbell and  
children left by motor today (Wed-  
nesday) for Edmonton where they will  
reside. The best wishes of the whole  
community go with them in their new  
home.

## PURE BRED CHICKS

Many of the highest record Pure  
Bred flocks in Western Canada supply  
us hatching eggs. These flocks are  
carefully culled and selected and se-  
lected. Our Petersime Electric Incu-  
cators ensures large strong chicks.

Our Four Hatcheries at Winnipeg,  
Regina, Saskatoon or Calgary are  
ready to supply your needs. Order  
direct from this ad. Immediate deliv-  
ery. We Guarantee 100 per cent. Live  
Delivery.

our plant.

## We Don't Grind Valves!

Continually regrounding the worn, warped valves  
of a crippled motor is like preferring a crutch to  
a cure — within a short time your car comes limp-  
ing back again for another reground—and another.  
It wouldn't be so wasteful if each regrounding held  
that original "new-Car" power, but it doesn't.

**WE DON'T REGRIND VALVES —  
WE RE-CONDITION BOTH VALVES  
AND SEATS BY MACHINERY**  
And What a Difference!

Ask any of our customers, or better still, come  
in yourself and have your valves inspected care-  
fully and properly.

### CANADIAN IDEAS IN JAPAN

When K. Hashima, superintendent of rolling stock and machinery of the Sapporo District, Japanese Government Railways, was in Canada recently studying the operations of the Canadian National Railways for the benefit of the people of his own country, he was particularly interested in the methods used in clearing snow from the track. In a letter to W. A. Kingsland, general manager of the National system's western region, Mr. Hashima expressed his thanks for the co-operation given him by A. H. Eager, general superintendent, motive power and car equipment, Winnipeg, and A. McCowan, assistant general superintendent, car equipment. He went on to describe a new type of snow-fighting machine which he had devised from ideas given him by K. D. McLay, bridge and building master of the Canadian National Railways, Calgary division. The machine, which is the most successful of all the types tried on the Japanese railways, has been named McLay. The plow is seen here in action and the inset is a photograph of Mr. McLay.

#### CROP MANAGEMENT FOR WEED CONTROL

A thorough summerfallow will usually be the most effective method of bringing the most persistent growing perennial weeds under control. When it is necessary to resort to the summerfallow as a weed control measure, it is advisable to adopt some systematic rotation of crops, with regular seeding down to grass and legumes at short intervals.

Many farmers feel that they can ill afford to free their land of weeds by a method which will not give a crop of some kind. While the eradication of perennial weeds such as sow thistle, quack grass, etc., necessitates the use of the fallow, such treatment does not free the land from many annual weeds such as wild oats, mustard, or stink weed, hence it is necessary from an economic standpoint to adopt farming methods that control rather than eradicate such weeds.

Land that is badly polluted with perennial weeds will produce an excellent crop of winter wheat or rye. Both of these crops act as smother crops for all types of weeds if they get a good start in the fall and do not winter kill.

Barley and oat green feed if handled properly will effectively compete against most of our annual weeds and many perennials. Land to be used for these crops should be partially fallowed before seeding. It is usually wise to disc stubble a week or so before ploughing and thus promote germination of weed seeds which, matured with the preceding crop and fell on the ground. A succession of such crops and treatments tends to reduce the weed seed content of the soil.

Seeding down to grass and legumes and cutting the hay crop early will prevent most kinds of weeds from ripening, thus decreasing the number of vital seeds in the sub-surface soil from year to year. Alfalfa and sweet clover are the best crops to use for this purpose.

Live stock and particularly sheep are valuable aids in weed control. Live stock are most essential to profitable agriculture on a weedy farm, as many of the crops which control weeds are not cash crops and can be marketed to best advantage by the live stock route. In addition to this, many perennial weeds with a creeping root system such as quack grass can be much more easily eradicated if the land is seeded down and left in pasture for a few years until it becomes sod bound.

#### VIKING

Mr. and Mrs. A. J. Ross were up from Ferintosh over the week end visiting at the Angus Ross home.

Mr. and Mrs. Percy Jones were up from Irma for the Sports on Dominion Day.

Mrs. Christensen, of Irma, was a guest at the home of her sister, Mrs. Chas. Broughton over the week end.

The Misses Rowena Harris and Irene O'Leary arrived from Detroit, Michigan last Saturday evening. Miss O'Leary is a guest at the home of her sister, Mrs. Lar Kelly, and Miss Harris is at the home of her mother Mrs. M. Harris southwest of town.

Mrs. LeClare, of Massachusetts, arrived this week and is a guest at the home of her sister, Mrs. H. Cartwright.

Mr. and Mrs. T. B. Gotobed and daughter Hazel, left Wednesday on a motor trip to Neelin, Manitoba, where they will visit for a month with relatives.

The former sample room at the King Edward hotel has been moved to First Avenue west and is being remodeled into a dwelling. A new sample room is being built adjoining the hotel on the east. Mr. Miller, the proprietor is having it arranged very conveniently for travellers where they can display their line of goods for the local merchants.

Work on the third block of cement walks will be begun this week. Born to Mr. and Mrs. Royce Gravert, a girl, Joyce Yvonne, weight eight pounds, on June 24th at the High River hospital.

The Jolly Sparks are playing for a dance in Jensen's Hall on Wednesday, July 10th.

WORLD HAPPENINGS  
BRIEFLY TOLD

Manitoba contemplates celebrating its diamond jubilee on July 15, 1930. It was announced at Winnipeg by Premier John Bracken.

The London "Daily Sketch" said Premier MacDonald had refused Leon Trotsky, former Russian war chief, permission to enter Great Britain as he requested recently.

The Japanese naval training cruiser "Akikaze" and "Tatsuta" will visit Vancouver on August 16-17. It was stated at the Japanese consulate there.

Albert Voight, a German, has left Edward, Alaska, in a 16-foot, collapsible rubber skin sail-boat for New York. He hopes to complete his 6,000-mile trip in six months.

Charles Coker-Patterson, editor of the "Life" magazine, J. C. Patterson, former lieutenant-governor of Manitoba, is dead. He was born in Ottawa, in 1868, and for a number of years was his father's secretary.

Eight tests will soon be made of television apparatus calculated by its inventor, C. Francis Jenkins, Washington physicist, to reproduce conditions as seen from an aeroplane, on a screen miles away.

Japan's co-operation in any disarmament program negotiations will be called together by that Premier Ramsay MacDonald and Ambassador Davies may have begun has been promised by Premier Tanaka.

France is preparing to bring into force a wide scheme of social insurance. It will cover sickness, old age incapacity, maternity benefits and, to a certain extent, unemployment.

Captain A. N. Eames, inspector in the Royal Canadian Mounted Police, who has been stationed at Vancouver for some time, has been appointed inspector in charge of the Arctic sub-district, with headquarters at Herschel Island.

Representatives of all the provinces will be called together by the federal government next autumn to consider the federal and provincial financial problems, according to intimations received at the Parliament buildings, Victoria.

## Germans Invent New Ship

Safer and Cheaper Than Existing Models Is Claim

A new kind of ship is being built by a German ship building company, which, it is expected, will be safer and more economical than existing models. The feature of the invention is the unusual shape of bow and stern, designed to press water down rather than to each side, and to reduce friction on the sides. It is said to cause the water to flow by the shortest route from bow to stern. Three high-sea fishing trawlers recently have been built by Deschamps, or the new principle. The builders announce that not only is the fuel consumption reduced 25 per cent compared with other vessels of equal size, but that rolling and pitching even in heavy seas is reduced to an extent not previously attained. Test trips also have shown excellent steering capacities.

A Severe Attack of  
Dysentery  
Checked by 4 Doses

Mr. I. Burtonwood, 420-22nd St. W., Saskatoon, Sask., writes: "My child, when only seven months old, had a very severe attack of dysentery, and after three days' treatment with other things we decided to use

On this day his bowels had moved twenty-three times in eleven hours, but four doses checked it.

A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours.

"We both always keep a bottle of Dr. Fowler's handy at all times. This medicine has been on the market for over 50 years, put up only by The T. Milburn Co., Ltd., Toronto, Ont.

W. N. U. 1791

## Designs On Totem

Poles Are Polynesian

Art Of B.C. Indians Similar To That Of South Seas

What strikes one most of all in looking at the arts and crafts of the British Columbia Indians is the general "Polynesian" character of the designs.

The totem poles are obviously related to those of New Zealand, the models of canoes and painted paddles recall the South Seas generally, and in some of the stone carvings there are hints of Easter Island.

On the other hand, the carvings in ivory and horn appear to link on to the early Chinese poles.

If these impressions are just they support the suggestion which has been made of a "Pacific" school of art, antedating the earliest Chinese art we know; and we might venture that whereas partly through Greek and Indian contacts, Chinese art went on developing, the arts and crafts of British Columbia remained more or less in the Pacific phase.

It is said that the Indians of British Columbia differ from those of other parts of Canada and the United States by a definite Mongolian influence.

Further it is known that the Russians were early visitors to British Columbia, and, sure enough, in the carved shaft objects there are distinct affinities with "Soyuzhny" art.

Owing, possibly, to the complete absence of pottery among these Indians, basket weaving appears to be the art that developed most consistently. Baskets, closely woven of cedar bark being used for cooking and carrying water; and their decoration, generally geometrical, but occasionally representing natural forms as of the skua gull in a convention arising out of weaving, throwing light upon the supposed origin of pottery—out of basket-making, first by doubling the basket with clay, and then by using clay alone, the decoration being transferred from one medium to the other.

## THE NEW PEPLUM BLOUSE

Simple blouse of printed blue crepe with peplum shaped so as to give smooth fit hipline. Shirting at each shoulder and new trimming are charmingly feminine details. Style No. 464 can be copied with 1 1/2 yards of 40-inch material with 1/2 yard of 36-inch contrasting in the 36-inch size. The pattern which is so easy to understand, can be had in sizes 16, 18, 20 years, 22, 24, 26, 28, 30 and 32 inches bust. Off-white ivory tone in crepe satin is stunning to wear with black pleated silk crepe skirt, or black full silk crepe jacket costume. Printed voile, handkerchief linen in line shade, vivid red crepe de chine and geometric crepe in modernistic print in foliage green are attractive ideas. Pattern price 25 cents in stamps or coin (coin is preferred). Wrap coin carefully.

We suggest that when you send for this pattern, you enclose 10 cents additional for a copy of our Spring Fashion Magazine. It's just filled with delightful styles, including smart ensembles, and cute designs for the kiddies.

There's no such thing as luck. What makes for the prosperity of the city as well as the individual is to do his work right and well.

## A Remarkable Hotel

Built On Steep Alps and Is 11,180 Feet Above Sea Level

One of the most remarkable hotels in the world is the Jungfrau, perched high up on the Jungfrau, in the Bernese Alps Switzerland, 11,180 feet above the level of the sea. Built of stone and iron, the hotel is welded, as it were, into the sheer rock of the famous mountain. Snows surround it eternally, and, in winter, it is buffeted by the fiercest blizzards of the Alps. But it gives hospitality and warmth to climbers and to the tourists who visit the mountain by the funicular railway from above Interlaken. From the windows of the hotel lounge one often looks out up on a world of clouds, through which some of the high peaks of the Bernese Oberland stand out like rugged islands.

Nearly every member of the hotel staff is an expert mountaineer. For though the Jungfrau runs to within a short distance of the hotel there are often long spells during the winter when the heavy snows prevent all communication with the outside world. There, the only means of reaching civilization is by skid along dangerous mountain tracks. The Jungfrau hotel had its origin in a ramshackle building but built by workmen when engaged in the construction of the funicular in 1912.

From this dwelling where they ate their simple meals of beer and bread has arisen the hotel that is unique in the world.

## Recipes For This Week

(By Betty Barelay)

## BOSTON STEAMED BROWN BREAD

1 cup granular flour.  
1 cup corn meal.  
1 cup flour.  
1 teaspoon salt.  
1 teaspoon soda.  
1 teaspoon baking powder.  
1/2 cup sorghum or molasses.  
2 cups sour milk.

Mix milk and molasses and add last. When well mixed, all lumpy, add half full. Cover tightly and steam for three hours. Unmold and place in moderate oven for 15 minutes. Serve hot or cold.

## FRUITY CREAM CUSTARD

4 oranges.  
2 eggs.  
1 cup sugar.  
2 teaspoons flour.  
1/2 teaspoon salt.  
2 cups milk.  
1/2 teaspoon vanilla.  
5 tablespoons sugar.

Beat egg-yolks, add 1/2 cup sugar, flour and salt and mix thoroughly. Add milk and cook in double boiler until thick enough to coat spoon. Cool, add vanilla, and turn into serving dish containing peeled and sliced oranges. Beat egg-whites with 5 tablespoons sugar. Heap on top of custard and serve.

Canadian Delegates  
For Press Conference

Dominion Will Have Largest Representation At Imperial Meet Next Year

J. H. Woods, managing editor of the Herald, Calgary, Alta., recently called for London, where he will consult with the council of the Empire Press Union in connection with the Canadian contingent of press delegates to the Imperial Press Conference, being held next year. Mr. Woods said that Canada will be sending 20 delegates to represent the 60 members of the Union in Canada. This is the largest representation of any part of the Empire. The last conference was held in Australia in 1925, and the one previous to that, in 1920, was held in Canada. The Imperial Press Conference is being held in London, England, in June of next year.

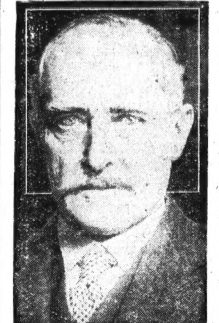

## How Names Were Given

Europe is derived from Europa, in Greek mythology a woman who was carried off by Jupiter, who came to her disguised in the form of a white bull and bore her to the island of Crete. The Greek word is said to be derived from the Semitic word meaning darkness, evening, sunset. Asia is said to derive its name from the Semitic word "as" meaning going forth, or rise of the sun.

## Trail Riding In Rockies

Trail riding is one of the favorite pastimes of the national parks in the Canadian Rockies. This is one of the best ways of seeing all, or most of the points of interest. In Banff, trail trips of ten, twenty-five, or fifty miles may be taken by the visitor on horses trained to the work and altogether trustworthy.

## AMBASSADOR MAKES DECISION

Sir Esme Howard, British ambassador to the United States, has announced that he will not sign any more liquor requisitions for the embassy at Washington, thereby waiving the diplomatic privilege of importing liquors.

## The "Canadian Mediterranean"

Montreal Journal Sees Important Future For The H.B.R.

Commenting on the completion of the Hudson Bay Railway, Le Devoir, of Montreal, edited by Mr. Henri Bourassa, expresses the belief that the new line to the Canadian Mediterranean will prove a valuable addition to Canada's transportation system, not only as a development road, but as an export route. The richness of the country through which the railway passes has already been proved. Le Devoir states, foreseeing large mineral, pulp and paper, and metallurgical establishments, along the road. It applies also the manner in which the Government is amassing data on the navigability of the Bay, and concludes: "It is improbable that the route will become a serious competitor of the St. Lawrence, but it is sure to be useful, and will become so more and more as seamen become familiar with navigation conditions."

## Hunts Grizzly In Spring

Hunting grizzly bear in the spring is good sport, according to Walter W. Lang, of Milwaukee, who has returned from the Canoe River country out of Mount Robson, B.C., with one grizzly hide and a couple of brown bears to his credit. It is Mr. Lang's fourth year in this part of the Rockies. He was accompanied on his hunt by Richard Lacey, also of Milwaukee.

## Large Area Photographed

Thirty-three thousand, eight hundred square miles were covered in Canada during the season of 1928 by oblique aerial photographs taken by the Royal Canadian Air Force for the Topographical Survey, Department of the Interior.

## To Make Huge Flagpole

Giant Stick Of Timber Shipped From B.C. To Toronto

A giant stick of timber, from which when converted into a flagpole the Union Jack will next year float at the Canadian National Exhibition, Toronto, was successfully loaded on the Canadian National S.S. Canadian Ranger, which has taken it to Montreal, whence one of the Canada Steamship Line steamers will convey it to Toronto.

The stick, which is second only in size to that donated a few years ago to Kew Gardens, London, England, was hauled on the timber floats of the Timberland Lumber Company, on Vancouver Island, and has been donated to the Exhibition as an advertisement of the huge size of British Columbia trees. It will be kept a year to thoroughly season and when trimmed down it will measure 184 feet in length, 34 inches diameter at the base and 10 inches at the top.

To stow such a huge timber required some skill, as the big stick is longer than the open deck space on the vessel. It was, however, loaded without any mishap on the top of deckload of lumber on the "Canadian Ranger" at the Burrard Drydock.

## Honor Belongs To England

Frenchman Did Not Originate Idea Of Artificial Silk

Most of the credit for the idea of manufacturing artificial silk goes to France, and the honor has usually been given to Reaumur, a French naturalist. Actually, the first known suggestion was made by an Englishman, Dr. Robert Hook. In 1664 he published a book, "Micrographia," in which he described a microscopic examination of real silk, and suggested the possibility of producing a similar thread by mechanical means. The first machine to produce an artificial thread was made in England. In 1840, Mr. Louis Schreier took out the first patent and erected his machine, embodying spindles, at Manchester, but the product failed to attract and Schreier committed suicide three years later. Today the spinnettes are in full use, and £125,000,000 is invested in the industry in England alone.

## University Of Alberta

The University of Alberta has just celebrated its twenty-first birthday. The first president, Dr. H. M. Tory, now president of the National Research Council of Canada, and the first premier of the province, Hon. A. C. Rutherford, participated in the anniversary ceremonies.

## Makes For Unemployment

One of the causes of unemployment in Europe is that our working lives have been prolonged, declares a statistician. At one time, he says, "too old at forty" was the cry throughout the world, but we have now found that we are not too old at 60 or 65.

## WINDOLITE

MADE IN ENGLAND

### The Improved Glass Substitute

COMES WITH A MESSAGE OF HEALTH

**THE sun is the all-powerful life producer.** Nature's universal disinfectant and germ destroyer, as well as stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess of the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it freely admits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and chickens and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new stimulus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of cattle and is now being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light last strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

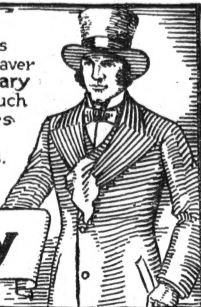

Use WINDOLITE and let YOUR PLANTS YOUR CHICKENS YOUR CATTLE Bask in 100% Sunlight Send for booklet "WINDOLITE"

### CHAPTER I

Cool gray dawn of a work day in the modern Babylon New York. The black curtain of night rose silently, seeming to trail ghostly spirals of mist. Against the sky's flat monotone the irregular and fantastic shapes of the skyscrapers stood out boldly—powerful and mysterious creations of Man.

In the dark canyons of the city streets dark figures moved purposefully toward their destination, factory hands with lunch kits tucked beneath their arms, stalwart steel-constructors men who carried the pride of craft in their way of walking, slim girls with the vivid memory of the night's romantic dreams still shining in bright eyes.

But uptown, in the glittering gay places of the city, was a sharply contrasting scene. In the "roaring forties" and "nitty fifties" where dozens of Broadway and fashionable Park Avenue "make whoopee" through the sleeping hours, the night clubs were ending their day. Through the tinselled doorways came lovely ladies in ermine coats and jeweled slippers, and men with silver-topped walking sticks, and top hats at rakish angles. Their heavy listlessness was broken occasionally by hysterical laughter.

In the lobby of the resplendent Plaza Club, Marcus, the revue producer, helped a pretty young actress into her fur coat. As he did so his arm went around her lingeringly for a moment, while she turned her graceful head and glanced knowingly into his eyes. Another man and girl of the Marcus party waited nearby.

"Well, let's call it a night," suggested Marcus, his hand resting affectionately on the girl's arm.

"No—please! Let's not go home. We can have lots of fun yet."

Her tone was wheedling, her smile gay. She was playing up to Marcus, first, because he was the great Marcus, secondly, because she wanted her own way. And now she turned to the other couple.

"Don't let him send us home yet," she said in the tone of a spoiled child. "We're having fun. We can go to some other place."

The other man and girl nodded, and the actress turned to Marcus.

"You see?"

Marcus sighed, then made one last stand.

"All the other places will be closed," he insisted.

"No, they won't. Blackie Joe's is open—the fun is just starting down there."

The revue producer made a grimace of distaste. "But that's such a dump."

**Too Much ACID**

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has been recommended for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy remedy. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

"Hey, Al! Ringside table for four!"

Al Stone, the head singing waiter and prize comic at Blackie's place, spun about. From their appearance these were important people.

"This way, ladies and gentlemen. Here's a nice spot."

The party relaxed about the round, white-topped table. Then Marcus, czar of the Broadway revues, turned to give the order. He looked up into the handsome, intelligent face of Al Stone, the obscure performer. As he did the actress next to him whispered, "Four beers?" Marcus nodded and repeated the order to Al.

The waiter straightened up and looked about for Blackie. These people were important, but he couldn't fill the order until he had the high sign from Blackie. He caught Blackie's eye and saw his right hand go up with the okay gesture. Then he turned away.

Who were these people he wondered, toward whom the boss behaved so deferentially? Well, it didn't matter. You could see, to look at them, that he had plenty of Jack. Later he would sing one of his best comic songs for them. They would probably loosen up with a good tip.

Someone else was speculating on the Marcus party, too. In the background, several tables away, stood Grace Farrell, the cigarette girl, her slim fingers resting on her tray, which was suspended from her shoulder by a wide ribbon. Her eyes were wide with awe, for she had heard Blackie Joe whisper the words, "Marcus of Broadway."

So this was the legendary Mr. Marcus, who made performers famous. But the thoughts of little Grace were not for herself. They were for Al Stone. Even as Al leaned over to take the Marcus order, her gaze had been caught with admiration for the singing waiter. If only Mr. Marcus knew how smart Al was, how funny he could be, what wonderful songs he wrote!

She tried desperately to catch Al's eye. She must reach him and tell him the name of this distinguished personage.

(To Be Continued.)

## Fighting Battles Of Humanity

Science Playing Important Part In Lengthening Span Of Life

At first glance it may sound fantastic to say that 100 years will be the prime of life, but it should be remembered that such an age was comparative youth in Biblical times. We have gradually shortened the life span as we have adopted artificial modes of living, unsuitable clothing and ruinous dietary habits. Easy living has also played its part. Nature was given a chance in Old Testament days. There is little chance that the public will ever be induced to go back to the natural mode of living which made such men as Methuselah possible. A substitute, however, is arising for Nature, and its name is Science. This great modern force is fighting the battles of humanity. It is attacking man's greatest enemy, disease, and it is winning its fight. Almost daily, new discoveries come to light which make us safer from the ravages of harmful bacteria, which show us how to avoid contagion, and which fight disease, once it is contracted. This work will go on and on, and it is on this fact that Professor Klotz bases his prophecy—Bridges Cities Star.

Time Has Tested It—Dr. Thomas' Electric Oil has been on the market upwards of fifty years and in that time it has proved a blessing to thousands. It is in high favor throughout Canada and its excellence has carried its fame beyond the seas. It is a cheap liniment.

## Britain Likes Canadian Honey

Is Growing In Popularity Says Assistant Trade Commissioner

"Honey is fast becoming a staple food on the British breakfast table, and the Canadian product is enjoying a growing popularity," writes Lester S. Glass, assistant trade commissioner at Bristol, in an article in the "Commercial Intelligence Journal." White clover honey and orange blossom honey are well thought of and South American white honey enjoys a high place in the estimation of the buying public. The British statistics for the calendar years 1926 and 1927, show a total import of honey of 73,251 cwt. and \$4,415 cwt. with a value of £201,962 and £221,067 respectively.

"I did what I could, Tony. I told her you had more money than sense."

"And what did she say?"

"She asked me if you had any money."

Use Minard's for the rub down.

W. N. U. 1791

## "Skinny" Women! Gain Weight Quick

New IRONIZED YEAST adds pounds in few weeks. Results guaranteed—or pay nothing

Why let a "skinny" body, bony limbs and few hollows ruin your charm? Ironized Yeast adds 5 to 15 pounds often in few weeks! Clears your skin; banishes wrinkles; gives you new strength. People ask—how does Ironized Yeast work so fast?

Ironized Yeast is two great tonics in one. Weight-building YEAST treated with two kinds of strengthening, blood-enriching IRON used for years by hospital medical authorities. The Yeast is also treated with Violet Rays to increase its effectiveness.

Only when Yeast is Ironized is it most effective. Iron is needed to bring out the weight-building, strengthening values of Yeast. Pleasant tablets. No "fizziness," taste, no gas or bloating. No excuse to stay "skinny" weak or plumply. Feel and look years younger. Get full day's treatment of Ironized Yeast tablets from any druggist. If not delighted with quick results, your money back. If convenient to buy from druggist, send \$1.25 direct to Canadian Ironized Yeast Co., Ltd., Post 1226, Out. Dock 425-MX.

## Turner Valley Oil

Now Producing At a Rate Of Over 830,000 Barrels Annually

In April, 1929, the Turner Valley produced 54,094 barrels of crude naphtha, and 14,303 barrels of crude oil, making a total of 789,267 barrels of oil and naphtha during the month. This is at the rate of over 820,000 barrels annually compared with 481,000 in 1928. From the present rate of increase it seems likely that the Turner Valley will produce well over 1,000,000 barrels this year.

## Little Helps For This Week

"My little children, let us not live in word, neither in tongue, but in deed and in truth."—John III. 18.

Let nothing pass for every hand. Must and none work to do. Lose not a chance to waken love. Be firm, and just, and true.

So shall a light that cannot fade Beam on thee from on high, And angel voices say to thee:

These things shall never die.

All the Year Round. There are little things that leave us little regrets. I might have said kind words, and perhaps have done kind actions to many who now are beyond the reach of them. One look on the unfortunate might have given a day's happiness; one sigh over the pillow of sickness might have insured a night's repose; one whisper might have driven from their victim the furies of despair.—Walter Savage Landor.

## Competing For Gold Cup

Many Swimmers Will Try England-To-France Crossing This Year

The channel-crossing season is on again.

What Julius Caesar did in a boat in 55 B.C., and Gertrude Ederle did in a bathing suit in 1926, A.D., has been done twice this year on pontoon bicycles, and at least a score of swimmers are in training to do what has not been done since 1923—the swimming of the English Channel from England to France instead of vice versa.

Two bakers, a mattress maker, a couple of stenographers, a nursemaid and a Bohemian mechanic have splashed their way from the coast of France to the coast of England, and it is getting to be old stuff.

This year the really ambitious swimmers are out to perform the more difficult feat of starting from England and finishing in France, unfavorable currents to the contrary notwithstanding.

Among the men and women who have announced their intention to compete for the gold cup offered for the first England-to-France crossing this year are several who in previous years accomplished the France-to-England crawl.

Other aspirants for ghannel fame in 1929 include a middle-aged seaman with a family of eight, an 11-year-old schoolgirl, a one-legged swimmer and an athletic though white-bearded gentleman of 60.

## A WARNING TO MOTHERS

Watch the Health Of Your Little Ones At All Times

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen the severity of these troubles. The mother should be constantly on her guard to prevent childhood ailments, or if they come on suddenly as they usually do, to have the means at hand to relieve them. Thousands of mothers have found Baby's Own Tablets the ideal remedy for little ones—thousands of mothers always keep the Tablets in the house as a safeguard against the sudden illness of their little ones.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels; sweeten the stomach; and thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth easy. The Tablets are absolutely guaranteed free from injurious drugs and may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

A man, as he manages himself, may die old at thirty or young at eighty.

## Big Aviation Merger

Saskatchewan and Alberta Interests Will Make United Bid For Mail Contract

In the biggest aviation merger in the history of western Canada, commercial aviation interests of Saskatchewan and Alberta have united under the name of the Great Western Airways, Limited, according to announcement made by Capt. Fred. R. McCall, managing director of the Calgary Flying Company.

Commercial Airways, Ltd., Edmonton, and Commercial Airways, Ltd., Regina, decided at a meeting in Regina, to pool their interests with the Great Western Airways, Ltd., Calgary, and make a united bid for the trans-Canada air mail contract. Arrangements have already been completed for financing the Dominion mail contract to the extent of \$1,000,000 if it is awarded, Capt. McCall announced.

The Great Western Airways will function as one company under the general management of Squadron Leader G. H. Tudhope, who is at present supervisor of airports and airways for the Dominion government. He has accepted this position with the new aviation merger.

## SKY TESTED

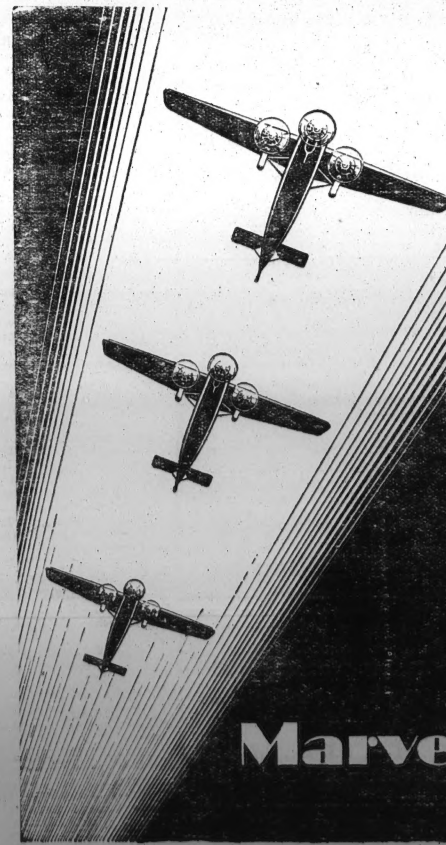

Your modern high-speed motor hums the tone of faster transportation. In speed, power and flexibility, the motors of the highway reflect the influence of the motors of the sky.

The oil that was "good enough" for the motor of 1925 is not good enough for the motor of 1929. Higher speeds, higher temperatures, higher compressions, have created more difficult lubricating problems and demand better oil.

Because Marvelube meets the high temperatures and high pressures of airplane operation it is the ideal lubricant for the modern automobile engine. Its rich lubricating properties are inherited from its base—Peruvian Crude.

On the highways as in the skyways, Marvelube gives smoother performance, less wear, less depreciation and real operating economy.

There is a grade of Marvelube refined to meet exactly the specifications of your car, truck or tractor. See the Marvelube Chart at Imperial Oil dealers and service stations.

## THE "LISLE" IS GUARANTEED TO BE The Most Accurate Valve Re-facing Machine ON THE MARKET.

To Our Customers and Others:—

We take pleasure in announcing that we have recently installed in our repair shop a Lisle Cup Wheel Re-facing Machine, and a complete set of valve re-seating cutters and are now fully equipped to do a scientifically perfect and accurate valve job for you.

This method of doing valve work is endorsed by automotive engineers, as being the only way in which to obtain a perfect gasoline tight joint, which will give your motor the power, pep and mileage it should have.

As we are always endeavoring to be up-to-date, so we can give you the very best of service and workmanship, we have gone to great expense in installing this equipment and believe that our efforts will be appreciated by you.

If your car, truck or tractor jerks and snorts, licks pick-up and power and acts like it is trying to climb a mountain when you are only trying to navigate a small hill — and you are getting tired of feeding it an overdose of gasoline — it needs a valve job — that's all! Bring it to us and let us do a valve job with this wonderful machine and we absolutely guarantee to remedy the trouble or gladly refund your money.

We invite you to drop in the next time you are around this way and let us demonstrate this machine, and explain to you the importance of having your valves properly seated.

Yours for better service and workmanship.

## Unreserved Auction Sale

As I am leaving the district I will offer my Household Effects for Sale at Irma.

**Sat., Aug. 3rd, at 2 p.m.**

W. THORPE, Owner

J. W. Stuart, Auctioneer.

## Main Street

Karl Sonoff and family spent the week-end in Irma.

Mr. and Mrs. Bishop left Monday for their holidays.

The weather still continues very warm, with little moisture and hot prevailing winds.

Ladies Aid will meet at the home of Mrs. Jack on Thursday, July 11th. Everybody welcome.

Mr. and Mrs. R. Brooks left Monday morning for Peterboro, Ontario, where they will make their future home.

Mrs. R. Whyte left Monday for the coast where she will visit her parents.

H. M. Laird of the local bank has returned to Irma.

L. A. Schon of Irma left Wednesday on his holidays. He will join his wife and family at Lacombe from where they will proceed to Korrinuir, Sask.

School is now over and the children are enjoying their holidays which began on the 28th June.

Preparations are being made to erect a new schoolhouse at Strawberry Plains. We understand Mr. S. G. Simons has the contract.

Many of the Irma inhabitants attended the sports at Wainwright on the 1st of July, others going to Viking where sports were also held on that date.

Roseberry U.F.A. will hold their annual picnic Wednesday afternoon, July 17th, when everybody is invited to come and have a good time.

W. Fallow of Vermilion has accepted the position as relief agent at the local station in place of B. Hollingshead who is being transferred to Innisfree.

Mr. and Mrs. G. W. Allen of Edmonton stopped off at Irma to visit Mrs. A. E. Foxwell, sister of Mr. Allen, on their way to Salt Lake Camp.

Mrs. M. L. Wright, Viletta, Morris and Orville left last Monday for Edmonton where they intend making their future home. Mr. Wright and Roger preceded them Saturday. Mr. Wright intends taking up his new position at Mountain Park.

Seven of our young sports left the first of the week for a fishing trip to Cold Lake. The party included Jack Fletcher, Bill Masson, Bob Smallwood, Billie Barber, Geo. Tripp, Henry Kasten, Billy McMorris. We understand Mr. McMorris took his truck to bring back the fish.

Miss King of Edmonton spent a very pleasant week end with her brother Mr. W. H. King of Irma. She motored back to Edmonton on Wednesday with Mrs. Vollick, Miss Weaver and E. P. Tomlinson and son who have also been visiting Mr. and Mrs. King. She will spend two weeks in Edmonton and Banff.

Now is the time of the year to advertise for those stray horses and cattle. A small ad in this paper will help you.
